

Daniel Yerushalmi

AI-Directed Web Developer

I define how a product should feel, use AI to execute at speed, then refine and polish. 67,000+ lines shipped across 23 projects, including a full-stack AI platform with 188 passing tests. Applying to lead the Technology Department.

Work Experience

Web Developer

Veredmor Diamonds
New York, NY

Built a new site for a working NYC diamond retailer (family-owned): a princess-cut diamond modeled in Blender and rendered in Three.js, plus a self-serve CMS for the team.

Independent Developer

Personal Projects
Ongoing

67,000+ lines across 23 projects. Stir, an AI reputation platform on Next.js and PostgreSQL with 188 passing tests. Jarvis, an AI assistant harness. A /cms skill that retrofits client sites.
